**ROMAN EXPANSION**

Use the Roman Expansion – Map Packet on the class website (Unit Materials > Unit 6). Complete the T-chart below to brainstorm ideas about how expansion could have positive and negative/challenging impacts for a civilization, specifically Ancient Rome. List as many ideas as you can on each side of the chart. You will use this information to write a recommendation letter to the Roman Senate.

Think about: How can expansion impact: territory, resources, military, government, laws, etc...?

**Be sure to pay attention to the dates on the maps!**

Recommendation to the Roman Senate -- Roman Expansion

After analyzing the maps and creating the T-chart comparison, write a letter to the Roman Senate that informs them of your advice as a Roman citizen regarding situations where new territory is added (expansion). You should support one side, but be sure to show your knowledge about both positive and negative impacts based on your observations of the Roman Expansion Maps.
